TOP SECRET

PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Manzovka Army Barracks is located on the east edge of Manzovka (Figure 1) and provides billeting and administrative support for the Manzovka SA-2 site.

The installation encompasses approximately 450 acres and includes a total of 124 buildings, including 1 administration, 28 administration/barracks, 25 barracks, 21 storage, 8 vehicle maintenance and storage, and 41 general support buildings. A wheeled-vehicle driver-training course was added to the installation during late summer [] (Figures 2 and 3). An industrial rail siding containing a wheeled-vehicle motor pool and a conveyor-tipple unit is located immediately northeast of the installation. Trackage indicates the possible association of this facility with the billeting area.

The installation was first identified on TALENT photography of [] It has been covered by [] KEYHOLE missions of interpretable quality. The billeting areas have shown no significant change from [] The activity and occupancy level appear relatively constant with only slight seasonal increases during summer months. The high proportion of billeting and the size of the vehicle maintenance and storage area suggest a military support unit and possible school. It should be noted that there is no evidence of field-type training normally associated with line units. The industrial rail siding appears to handle possible construction materials. An association of this activity with this installation would suggest the support of a military construction unit.

DESCRIPTION OF INSTALLATION

Railroad Service

A spur rail from the Chernigovka junction with the Khabarovsk-Vladivostok line passes immediately north of the installation.

Road Service

Secondary roads connect the installation with the Manzovka complex and from there with primary hard surface roads.

Administrative and Troop Housing Areas

Area D1 contains 1 administration building, 11 administration/barracks, and 15 support buildings, including a possible mess hall and dispensary. This appears to be the main administration area.

Area D2 contains 17 administration/barracks and 9 support buildings.

Area D3 contains 25 barracks and 9 support buildings.

General Storage Areas

Area E1 contains 3 general storage buildings.

Area E2 is secured and contains 4 general storage buildings.

Other Buildings

Eight general support buildings are scattered throughout the installation.

Equipment Storage/Maintenance Area

Area J contains 8 vehicle maintenance and storage buildings. Four are 165 by 65 feet, one 250 by 65 feet, one 135 by 65 feet, one 210 by 80 feet, and 1 L-shaped measures 285 by 35 feet with a 155- by 35-foot wing. There are also 14 support buildings and two 550- by 220-foot vehicle parks.

Athletic Fields

Area K1 is an athletic field associated with area D1. A second field, K2, is located immediately west of the installation. Trackage indicates some use of this area by the troops in areas D2 and D3.

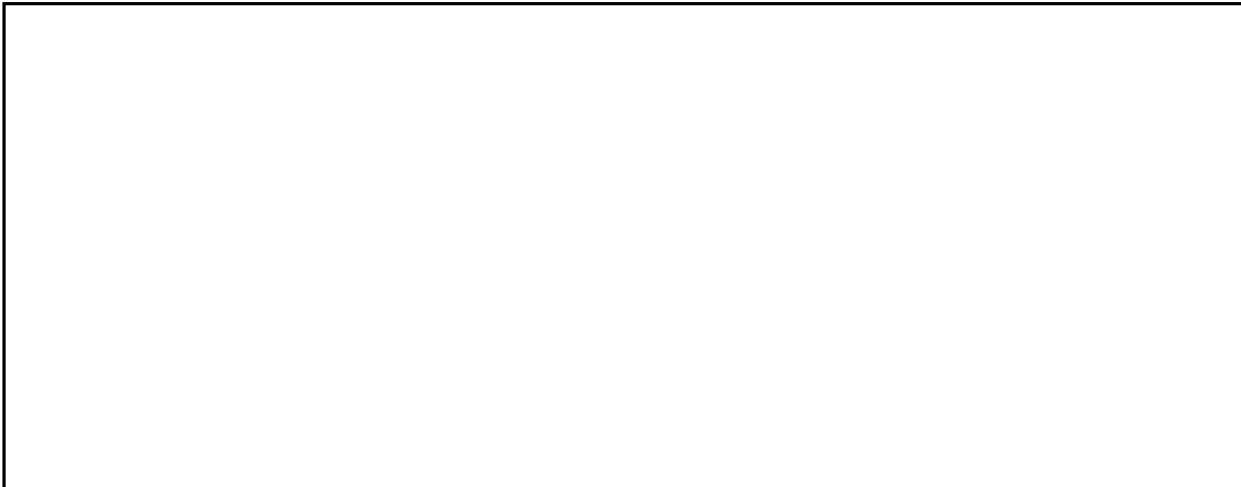

Driver-Training Area

Area M is a wheeled-vehicle driver-training course first observed in
